DR. STRAUS, WOULD inform the citizens of Louisville and its vicinity, that he has located himself here permanently, for the purpose of practicing his profession in all its various branches, after the latest and most approved style. Having practiced for the last twenty years in New Orleans, I feel confident of giving satisfaction to every one who may honor me with a sall. I would call the particular attention of the public to my mode of filling teeth, which is done in such a manner as to get twice the amount of gold into a cavity, as done in the usual way. I can, therefore, "guarantee "every tooth plugged in such manner to be as good as if never decayed.

Artificial teeth inserted—from one to an entile set—not only for beauty, but also for use, with or without suction, such as the case may require. Teeth extracted with as little pain as possible, and all other operations pertaining to dentistry.

Reading Matter on every page. The Tobacco Inspectorship-Action of the Council. The General Council, at its session last evening, which was protracted until midnight, again had under consideration the question of Col. Bayles' J. A. Krack, were absent.

wed by a committee of one from the trade, who who has lately arrived here, perfomed upon the will also sample the tobacco. From this the comnittee of the General Conneil is to make its deductions and report the action that shall be eemed necessary at the meeting next Thursday ight. The vote on this measure was hve to two, Dr. Hall and A. Duvall voting against it. As the called meeting of that body will probably be held, so that we may soon chronicle a settlement of this infortunate difficulty. It is not known whether Col. Bayles will submit to the test, but it seems that not only the sentiment of the trade, but that of the Council is opposed to him.

THEATER-BENEFIT OF THE FLORENCES .- A large udience attended the theater last evening, and the several plays went off with spirit and interest. The last piece, in which all of the play actors enacted the various parts under their own names, ertainly had plenty of nonsense in it, but it also ontained plenty of fun. Like the old joke of the drunken fellow in the circus, who insists upon riding, which he does to the surprise and wonder of the astonished multitude, so Florence and Scallan played the deuce by their devilment by "sellthe spectators in a similar manner .-Their disguise was so perfect, that with the apparent fright and disgust at their conduct by their fellow actors, some of the audience swelled with indignation. The finale, which explained all, made as much fun and laughter as was ever seen in the Louisville Theater.

The benefit of the Florences takes place to night, and a good bill is offered, viz: "The Knight of Arva," "Lola Montez," and "Working

A SPLENDID LITHOGRAPH. - We have been favored by Messrs. Hart, Mapother & Co., of the corner f Third and Market, with a beautiful lithographic view of one of the finest blocks in the city. It mbraces the square on Main street, between Bullitt and Fifth, and is exceedingly accurate in its detail. Every sign, even the stone and the different architectural effects, are most beautifulpictured. As a representation of the style of aildings which adorn our main thoroughfare, it is highly creditable to Lousville. It is even more onorable as a specimen of the character of lithographic engraving executed in this city. It cerainly cannot be excelled anywhere, and surely not equalled in the West.

The establishment of Messrs, Hart, Mapother & Co., is one of the most complete in the West .-A large number of superior artists are employed, and the proprietors are gentlemen of superior attainments in their department.

The escape of Dr. Gaillardt from the custody of an officer in New York, just as he was about to be sentenced, continues to be a topic of conversation. The following curious statement the most permanent and recherche style | in reference to it, appears in the Sunday Mer-"The escape of the Doctor was attended by an outlay of ten thousand dollars, which was readily and willingly liquidated by his friends, without the intervention of his rivate purse. He will never appear again in New York, unless he obtains pardon, as he posably may, at the hands of Gov. Morgan, if that entleman should be perfectly satisfied that he is entitled to clemency." After perusing a paragraph like this, where the pecuniary details are given with the most satisfactory and perfectly understandable minuteness, the inquiry suggests tself, why is not the writer of it requested to nake himself apparent to the judge, and tell all e knowns about the absquatulating Doctor's

Young Mens' Christian Association Lectures. We are very glad to hear that this Association atend having a course of lectures this winter .-They contemplate giving our citizens such an in ellectual treat as they have seldom enjoyed .-The Association hope to have for lecturers such nen as Bayard Taylor, Lieut. Maury, and others; nen of world-wide celebrity, with whom they are now in correspondence, and determined to obtain possible. They expect and have every reason ask for such a support as their enterprise deerves. The course will consist of six lectures, be delivered during this month and the next. The price of tickets to the whole course, admitting me person, will be \$1. The members will cal pon our citizens in a few days, with the tickets for sale. May their efforts be attended with the

To Housekeepers .- One of the most desirable nings in every well regulated household, and vithout which there is no getting along, is a good up of clear, pure, and strong coffee. How many reakfasts have been spoiled, how many tempers uined by poor, bad, or riley coffee. Now, all hese troubles, and thousands of others, can be obviated by calling on P. M. Jones, at his depot, on Fourth street, between Main and Market. He has just invented a coffee pot, with which a good cup of coffee, pure, strong, and as clear as a crystal, can be made in one minute. We have forgotten the name of his invention, but as it is simple and cheap, everybody ought to have one. Call n and see it.

MORE ABOUT A BURGLAR.-Mr. A. M. Green was cobbed of clothing valued at \$70, and a revolver, at a boarding house, on Second street, some three weeks since. Policeman Kirkpatrick, yesterday, traced the robbery to Henry Evans, one of the burglars committed to jail a few days since. A fine vest, belonging to Green, was found in possession of Evans, but he strenuously denied the robbery impeachment. The proof is positive against the

rascal, we are informed. A fine overcoat, of brown color, which is hought to have been stolen, was also found on Evans. It can be seen at the police office.

presented a beautiful and brilliant spectacle last night. The compliment to Miss Bertha Scheidler was no empty honor. It was a substantial recognition of her musical abilities, of which she may well be proud. SCARCITY OF HOGS IN NORTHERN ILLINOIS.—The Chicago Press says: Chicago Press says:

There seems to be a general impression that the country through which the Chicago, Burlington and Quincy, and the Peoria and Quawka railways pass, are pretty well stripped of hogs. Buyers have been out from Quincy, Lacon, Peoria, Burlington, and all the packing points in the region round about, as well as from Chicago, buying all they could tonch. Of course, much of the talk which is made about "short crop," etc., may be faction; but there is no mistake about the great falling off in the weight of the hogs this season

mer season, and at this time last year packing had scarcely commenced. We presume the total amount this season will be nearly 60,000. Prices range from \$5 to \$5 50. MOUND CITY, ILLINOIS .- Bell & Murdock, of Louisville, will kill 10,000 hogs at this place. Three thousand packed last season.

Great Railroad Convention at Memphis, Monday, January 4, 1859. The presidents, officers, and stockholders, in all ompanies interested in the completion of a raiload to the Pacific, will meet, as above stated, in his city, for the purpose of determining upon he best plan and route for the construction of the Pacific road. It is desirable that all companies west of the Mississippi should combine upon a single route. All the roads from St. Louis to New Orleans, running west, should companies Orleans, running west, should converge at a given point in the State of Texas, and from this nt to El Paso, or to San Francisco, the united credit and capital of the several companies may be combined for the prosecution of this most mag-nificent railway scheme ever conceived in this or

any other country.

By no other means than this consolidation of strength and influence, can Federal and be obtained, and by no other means aside from governmental ownership, can this national work be ac-complished without urion among competing coutes, and a harmonization of conflicting views each route and road having its peculiar friends in the Senate and House of Representatives.

The convention at Memphis can remove all these difficulties; a compromise of opposing views can be effected, and speedy legislation, such as may be required, can be brought about. This convention, with its proposed results, will be the first great effective movement made towards the convention of a nord devantly wished for his proposed. consummation of an end devoutly wished for by every one who would advance the prosperity and

wealth of his country.

All railroad men East and West of the Mississippi, interested in the Pacific road, are desired to be present by the resolutions adopted by a reeting of directors of the Memphis, El Paso and Pacific company.

We sincerely hope that our exchanges everywhere will notice the call for the convention now agreed upon by all the friends of the measure to which we have referred.—Memphis Appeal.

RT DEFIANCE ATTACKED BY THE INDIANS-NINETY INDIANS AND FOUR U. S. TROOPS KILLED

From the St. Joseph Gazette, November 27.1 We have been permitted to see a letter written a gentleman in this city, dated Santa Fe, Octo-er 31st, in which the writer states that news was received in that city the evening previous, of an attack upon Fort Defiance, by the Navajoe Indians. The Indians were repulsed with a loss of about ninety killed; the troops sustaining a loss of four men. The Indians also drove off a large number of horses belonging to the Government. Lieut. Mullan, with his party, was sent with Major Grier to determine the position of the battle-field, and make a map and sketch of the ground. Dr. Randolph and Lieut. The wolves had more than done their duty, and the bones of men, whom their country should never forget, lay bleaching on the prairie hills for miles around. During the heat of battle, their bodies could not be recovered, and as the refreat was made at night, no time was had to pay burial to any save Capt. Taylor, Lieut. The most singular circumstance was that the man, in this horribly wounded condition, walked into an adjoining department where other workmen were, and alterwards walked to a carriage, in which he rode to his home, surviving the accident nearly half a day. ATTEMPTED SUICIDE BY A WELL-KNOWN MERCHANT—FATAL RESULT FEARED.—About half-past 6 o'clock, Monday evening, a friend of Mr. Robert Adams, a well-known and highly-esteemed commission merchant, whose place of business is at No. 89 North Second street, corner of Locust, called to see him at the Planter's House. He ascertained that Mr. Adams had not been to tea, and after remaining in the office a few minutes concluded to go to his room, No. 55, on the second floor. He found the door locked on the inside, and fearing Mr. A. was unwell, or that something unusual had happened, made a forcible entrance. On going in he first saw a vessel in the middle of the floor, containing as much as a quart of blood, and on glancing at the bed discovered it to be very bloody, and was horrified to behold his friend with his throat cut from ear to ear. Mr. Adams was

bloody, and was norrined to benotich is throat cut from ear to ear. Mr. Adams was not dead, but quite speechless and insensible. A messenger was at once dispatched for Drs. Oliphant, Pope, and Scott, who speedily arrived, and found that the patient's throat was literally cut from ear to ear. There had evidently been made three or four these with reserve to destroy life. The razor was found closed on a bureau.

Indian Corn For Expertation. In an elaborate article on the value of Indian corn as "Food for the Million," the London Mark Lane Express suggests some facts of interest to western farmers. It sets forth that none of the ceralia holds out greater prospects of a regular and full supply than Indian corn, especially to the limited means of the laboring population, and thinks that the existing prejudice against maize as an article of human food, must sooner or later give way before the progress of science. It makes it appear from analysis that the meal It makes it appear from analysis that the meal from this grain is more nutritious than flour from wheat, as it contains two per cent. more gluten and six per cent. more fat, and besides this, it is more wholesome as well as more nutritious, owing to the large amount of oily matter, besides the peculiar medical elements which it contains. Notwithstanding the value of this grain as set large and the transfer of the circumstances, I shall, perhaps, Lot be blamed if I go somewhat further into the matter. In the general circumstances of the case, I contains the contains two per cent. More gluten and six per cent. The match between yourself and Mr. Staunton has not taken place. To this the reply might be that any one should impute that failure to you, nor am I aware that any one has done so. But in the circumstances, I shall, perhaps, Lot be blamed if I go somewhat further into the matter. In the general circumstances of the case, I conforth, the Express thinks that Indian corn has a Havor peculiar to itself, which the prejudices of that country have yet to overcome; but notwithstanding it is fast establishing itself among all
the civilized nations of the world as an invaluable article of food, and from experiments lately
made there, it has "no hesitation in saying that
if it were imported here fresh, and free from injury, it would soon become a favorite at the tables of more than our toil-worn population."

It is a fact, that while no care, skill, and ingenuity have been spared in the United States to produce the most perfect, fine, and white article of flour from wheat, both for home consumption and export, little care has been taken with Indian corn. As corn and corn meal was first shipped to England at the time of the famine in Ireland, a few years ago, as it is shipped even at this day, it is not to be wondered at that strong prejudices should exist against it as an article for food-prejudices that will require a long time to remeve, particularly while this grain is so carelessly gathered, and shipped in the improper condition that the largest portion of it is, that is sent out of the country for consumption by a foreign people. With all the care that is bestowed upon wheat and wheat flour, whether consumed in this country or exposed to a voyage across the ocean, much of it becomes sour, and is sold at a reduced price, while Indian corn, owing to the large amount of oily matter and water it contains is much more liable to injury from fermentation, while exposed to a sea voyage. But, notwithstanding this liability to injury, no special care is taken with the corn by the farmer, to preserve it in the dryest and best possible condition for shipment; but it is shelled promiscnously, often inferior and damaged ears with the sound ones. and shipped in this condition, or ground and then shipped, and the tendency of the injured portions is calculated to extend the injury to the whole

In order to render Indian corn, or corn meal, safe from injury for transportation, it must be submitted to some artificial process of drying, or the corn must be naturally dry when ground, and the meal packed in a way that it shall receive ventilation, so as to prevent even the beginning of the process of change by fermentation. Various methods have been employed to secure this end; kilns have been constructed for drying the meal, both by fire heat and by steam, but these processes are found to be more or less objectionable, as they have not always secured the end sought. ome years since, an extensive manufacturer of flour in Watertown, New York, conceived the idea of inserting a tube through the centre of the barrel containing flour and meal, and thereby removing the center of the mass, and of admitting a free circulation of air through it. A party, interested in the invention, in this city, made several experiments in meal thus packed, and exposed it to a trip to New Orleans, where it remained through the heat of summer, and in the following winter it was returned to the city, where it was eaten in the usual form of bread. It proved to be perfectly sweet, and in no way inferior to the best fresh ground meal. We also ate bread made of meal submitted to the same process, after it had been subjected to four passages across the Atlantic ocean, and this was also perfectly sweet, and made superior bread. This process was fully tested in England, and a patent received in that country, and France, but of late we hear nothing further from it. If this, and the various other methods that have been practiced for the preservation of corn and corn meal, have, in any way, failed to fully secure the end desired, science should be selicited in some other form to accomplish the result. That American skill is not competent to the task, we will not admit. It is a subject of sufficient importance, not only to the American farmer, but to the laboring poor of other countries, to call forth the inventive powers of our people to meet this specific want.

While wheat is liable to so many casualties, and while there is a gradual falling off in the product in all the wheat growing States, and while Indian eorn is one of the most productive and sure crops in the United States, it certainly behooves us to employ such means as will preserve this cereal in the most perfect manner, and secure the immense foreign trade that awaits us in this article.

On the subject of the condition in which this grain now reaches London, the Express remarks: Good Indian corn is hardly to be had in this country; for, in judging from forty or fifty samples we have purchased, upwards of one-half would not be considered, in America, fit for human food. Even the best samples of corn, on the Corn Exchange, smells musty-an infalliable proof that injury has been sustained either in the "erib," before marketing, or subsequently in grainery, or vessel, during transport." The Express very justly remarks that: "Jonathan can never succeed in learning John Bull to eat either sour flour or musty meal."

Of the "peculiar taste or flavor of Indian corn," which the Express thinks the "prejudices of England have yet to overcome," we will remark that in the Northern flint variety of corn this peculiar flavor is much more prominent than in the more soft, larger kinds of the South and West. The flavor complained of arises chiefly from the greater quantity of oil the flint corn contains, particularly of the yellow variety, over our large western soft kinds. We know of no more promising speculation for some of our western enterprising merchants to engage in, than the manufacture of a good article of corn meal from sound, dry, white corn, properly protected from fermentation, and shipped direct to England and other countries of Europe. There are several points from which this trade might be carried on not only extensively but profitably. All that is wanting is care in guarding against the direct causes that lead to nentation and injury of the meal in its transit across the water. The enterprise, properly engaged in, would, in our opinion, not only prove a good one for the merchant, but an infinite blessing to the laboring population of Eu-rope. To the supply of this product in the United es it may be said there is no end, which is not the case with any other cereals grown in this or

any other country. A paragraph reflecting upon a distinguished professor in our Male High School, appeared in our paper yesterday. There was no meeting of the board of trustees, as stated, and the distinished Professor has not lost his place. He was

CHESS MATTERS-MR. MORPPY .- Mr. Morphy has decided to pass the Winter in Europe. His decision cannot fail of giving a still greater stimulus to European chess. Herr Anderson also has made final arrangements for being in Paris on the 12th December, so that this much-expected match will really come off. After its termination Mr. Morphy will probably be in England, where plans are already affoat for giving him the reception he merits.

Lord Lyttelton has addressed a letter to Mr. Morphy, from which we make the following extract:

In the general circumstances of the case, I conceive that Mr. Staunton was quite justified in declining the match. The fact is understood that be spared, without serious loss and inconvenience both to others and to himself. But I cannot but think that in all fairness and considerateness, Mr. Staunton might have told you of this long before he did. I know no reason why he might not have ascertained it and informed you of it in answer to your first letter from America. Instead of this, it seems to me plain both as to the interof this, it seems to me plain, both as to the interview at which I myself was present, and as to the other communications which have passed, that other communications which have passed, that Mr. Staunton gave you every reason to suppose that he would be ready to play the match within no long time. I am not aware, indeed, (nor do I perceive that you have said it,) that you left Ameriea solely with the view of playing Mr. Staunton. It would, no doubt, make the case stronger, but it seems to me as unlikely as that you should have come as has been already stated. you should have come, as has been already stated (anonymously, and certainly not with Mr. Staunton's concurrence) in order to attend the Birmingham tournament."

Democratic Meeting in Owen. At a meeting of the Democracy of Owen coun-y, held at the court house in Owenton, on Monday, November 15, 1858-county court day-Ben.

day, November 13, 1835—county court day—Ben. Hayden, Esq., was called to the chair, and J. A. Duncan chosen secretary.

On motion, R. H. Gale, A. P. Grever, Dr. N. Green, C. M. Y. Hite, and G. R. Lee, Esqrs., were appointed a committee to draft resolutions expressive of the sense of the meeting. Thereupon the said committee retired, and after deliberating, reported the following preamble and resolutions. reported the following preamble and resolutions, to wit:

WHEREAS, The history of the Democratic party is the history of the country, and to the administration of the principles of that party the country is indebted for its unheard of progress in wealth, in power, and in territerial extension. Although scationalists and factionists have banded together in a wild hunt for office, the country need fear no detriment so long as the lion-hearted Democracy maintain their principles and put forth their strength. We are willing to bury all past differences of our party at the common alter of our country—to forget she past in patriotic efforts to achieve fature triumphs of our principles, and fo this end we rosolve—

1. That the fiery ordeal through which the Democracy of the country have recently passed, but confirms our raith in the strength and correctness of their principles.

2. That these principles, as epitomized in the Cincinnati platform of June, 1856, challenge the admiration and support of the true men of the country everywhere.

3. That we have unabated confidence in the integrity and administrative ability of the present Executive of the nation. ciples of that party the country is indebted for its

4. That we believe it is the mission of the Democratic the great experiment of the confedera

the nation.

4. That we believe the mission of the Democratic party to conduct the great experiment of the confederation of free and sovereign States to a happy and glorious success; and that all dissensions and blockerings of Democratic leaders on questions of policy or expediency, will disappear in the next great struggle for the maintenance of the long tried and cardinal principles of Jefferson and Jackson, on the basis of which alone can the Federal Government be safely preserved and properly administered.

5. That we cordially acknowledge and approve the faithful and efficient stewardship of our representative in Congress, the Hon. John W. Stevenson.

6. That we specially recommend no one for any of the State offices to be filled by the people on the first Monday of August next, but pledge ourselves to support the nominees in the convention, which is to assemble at Frankfort, on the State offices of Stanuary next.

7. That we embrace this first occasion of a public meeting in our county to acknowledge the compliment of the Democracy of Kentucky to our county in the election of our worthy fellow-citizen, R. R. Revill, Esq., to the office of Clerk of the Court of Appeals.

8. That we recognize with pride and pleasure the efficient aid derived to the Democracy by the active and zealous support of that portion of our party known as Oid Line Whigs, and we cordially welcome them as colaborers in the great cause of Democracy.

R. M. Gale, Esq., offered the following resolu-tion, which was adopted:

Resolved, That the delegates appointed by this meeting be instructed to ascertain whether that veteran Democrat and gallant soldier, the Hon. W. O. Butler, (to whom the Democracy and the country are indebted for a whole life-time of patriotic devotion) can consent to lend the magic strength of his honored name to the Democracy of Kentucky once mere as their standard bearer in the next Gubernatorial contest.

On modion, On motion,

Resolved, That J. C. Glass, H. H. Head, C. M. Y. Hier, J. L. Hill, E. J. Sanders, R. H. Gale, J. S. Suape, A. Crover, Jesse Holbrook, Bunjamin Hayden, Dr. N. Freen, John N. Witt, W. H. Sandford, J. P. Sparks, and II other, Pemperatus of Operations

A bull-dog attacked Gen. Tom Thumb's ponies lately, as he was riding to the Teutonic Hall, at Liverpool. The ponies ran at great speed, and it was with difficulty that the General was rescued. His valet was knocked down and injured, one of the ponies was seriously woun ded, and the carriage broken.

BORREAVE'S HOLLAND BITTERS .- The press of the coun try has been particularly loud in the praise of the Bit-ters. Among the many notices, we offer the following to an impartial public: "It is a well known fact that we do not puff patent edicines, and that we but seldom advertise them, but

Bærhave's Holland Bitters comes to us endorsed in such a manner, as a specific for the diseases it professes to cure, that we not only advertise it, but give it this favorable notice unasked by the proprietor".-Handel Zeitung, N. Y. The Philadelphia Argus, in speaking of the late ex libition held in that city by the Franklik Institute, says:

"In noticing medicines, we are always extremely cau-lous, unless satisfied of the merits of the article. Among those exhibited is the celebrated Holland Bitters. This nedicine has been extensively introduced into every State in the Union, and into the Canadian Provinces principally within the last two years. The exhibition shows testimonials in every language known in America among which we notice one from the late Hon. John M Clayton, of Delaware."

FRANKFORT, Kv., Nov. 12, 1858.

Mesers. Morton & Griswold—Gentlemen: I have received Goodrich's series of School Readers, revised and, I may add, greatly improved, by Noble Butler, which you did me the honor to send to me. They are an admirable series: in my option, unsurpassed in the whole catalogues of English school books, in every element which can commend them to public favor. I have examined them with great care, and have had my admiration constantly excited not only for their beautiful typography and mechanical execution, but for the intrinsic excellence of every lesson from beginning to end. They ought to be in the hands of every district scholar in the State and throughout the West and South.

Wishing you all the success you so well merit, I am, very respectfully. FRANKFORT, KY., Nov. 12, 1858.

is rapidly advancing in the estimation of the public. I is no empirical nostrum; its component principles ar made known to the entire medical faculty. It is pre pared accurately from a receipt of an experienced and talented physician, and has proved itself to be the greatest remedy for all diseases of the lungs ever dis covered; and wherever it has been introduced it has made oures which are perfectly astonishing. It is bound to supersede every other couch medicine before the pubic. Testimonials are daily being sent in to the proprietor of cures effected even after physicians had abandoned every hope. A single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so ease of the lungs? Because they neglect its sure fore unner, a "simple cold," which might be easily cured by the prompt use of a single bottle of Dr. John Bull' Compound Pectoral of Wild Cherry." \$50 REWARD.

WILL give a reward of Fifty Dollars for the appre-hension and confinement in jail so that I can get him, certain free negro, named Jackson Hunt or Hilliard, aised in DeKalb County, Tennessee, having free papers raised in DeKaib County, Tennessee, having free papers from said county.

Said boy is about 5 feet 10 inches high, dark mulatto color, spare make, weighs about 140 or 150 pounds, good countenance, steps short in waking, aged about 20 years; had on new black clothing, and probably a bluish hat when he left. Said boy is accompanied by a white girl, my daughter, whom he stole and is running away with, and it is supposed they are aiming to make their way to a free State. They left my house, 7 miles west of Emithville, DeKaib County, Tenn., about dark, Tuesday evening, Nov. 23, 1358.

My daughter, who is named Harriet, is about 15 years old, well grown for that age, weighs about 140 pounds, fair complexion, slightly freekled, rather coarse featured, dark or brown hair, can read print well, and writing poorly; had on when she left, a black shawl with a flower in one corner of it, and a home-made cotton dress, and with her two worsted dresses, just alike, in a home-made satchel. I wish her also confined.

ATTEMPT OF A FATHER TO STEAL HIS OWN CHILD. Some years ago, the wife of a man residing in Kentucky, died, leaving one child, a little girl. Previous to her death, she induced her husband to consent that the child should be given to its grand-parents, residing in Bracken county, Ky., a few miles back from the river, with whom the little girl has since resided. Subsequently, the father removed to Felicity, Clermont county, in this State, and married a second time. He then wished to get possession of his daughter, and attempted to do so by course of law, but the court decided exquiret him.

decided against him.

On Sunday last, accompanied by his brother, he visited the house of the grand-parents, in Bracken country, and taking the child upon his knee, waited an opportunity to escape with it. He finally made a rush for the door, and was met on the porch by the grandfather, who not heingable the porch by the grandfather, who, not being able to stop him, called for his gun. The father, with the child in his arms, drew a pistol upon the old gentleman, but without firing, made his escape rapidly toward the river. Much excitement was created, and several persons immediately started in pursuit, and overtook the father within a few steps of the river. The child was recorded. steps of the river. The child was rescued, and again placed in possession of the grand-parents, who were overjoyed at recovering their little treasure. The husband, defeated of his object, then

Very Severe Accident to Judge Hart.—We learn that Judge Hart, city solicitor, met with an accident of a very serious character, at Loveland, on the Little Miami railroad, twenty-three miles from this city, about six o'clock last evening. On returning, he attempted to step upon the forward platform of the rear car, but making a mis-step, he fell underneath the care. A man ran out from the eating house and attempted to draw him from the track, but did not excited. te drag him from the track, but did not entirely succeed. The hind wheel of the car caught the inner portion of his left leg above the knee, and aid open the flesh for some twelve inches, co pletely exposing the bone. The wheel also passe over the right foot just below the instep, crushin three of the bones and dislocating the joints of three tos.

He was immediately removed to the Paxto House, and three physicians of the neighborhood summoned to attend him. Medical assistance was also sent for to the city. When our informant left Loveland, last night, the judge was in a very low condition, although his injuries were not considered necessarily fatal. Should he recover, he will probably be a cripple in his right foot for life.—Cin. Gazette.

RISE IN REAL ESTATE.—We notice by the Cal ornia papers that a movement in real estate has been commenced in San Francisco, which is ever more active than any that has occurred in the At lantic cities. The San Francisco Herald of No vember 5th says that it has advanced twenty per cent. in value within a month. Last spring proper ty was sold for \$18,000, which recently brough \$28,000, cash. A piece of real estate, which sol with difficulty for \$14,000 on the 23d of Septem ber, readily changed hands since the 1st of No vember for \$20,000. Other instances are given by the Herald equally striking. Capitalists all ove the country seem more eager now to buy than to sell real estate. The disposition to realize cast for investments in brilliant but dangerous enterprises has received a terrible check, and safety has become the great desideratum of moneye

BROWNERS. MAKE

BY 25 PER CENT. IN THE UNITED STATES! TRIPP & CRAGG,

NO. 109 FOURTH STREET, LOUISVILLE, KENTUCKY, Sole Agents for Kentucky and Indiana. NUNNS & CLARK'S Improved New Scale Pianos are so well and favorably known in this market, and throughout the whole country, to be SUPERIOR in touch, tone, and durability, and they speak so well for themselves, that they need no word of commendation from any one.

HAINES BROTHERS' PIANOS are new Pianos in this market, but they are well known in many sections of the country as an A No. I instrument. Competent judges who have tried them pronounce them fully equal, if not superior, to the Steinway & Son's Pianos. They are a beautiful, highly finished instrument, and we can sell them at three-fourths the price of a Chickering Piano, as we do not have to pay anything for their name or reputation. We still keep a full supply of the New and Improved Scale of Chickering & Son's Grand, Parlor Grand, and Square Pianos, and as we are Cash Dealers in them, we can sell them unusually low for cash. We have also several other makes of Pianos, all of which we warrant to give perfect satisfaction. We respectfully invite strangers visiting the city during the Fair, and all others in want of Pianos, to call and examine our complete stock, for we are selling exceedingly low for cash. THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA

DISEASE OF THE KIDNEYS. LIVER COMPLAINT. Weakness of any kind,

LIVER AND ACUE. And all the various affections consequent upon a diseased STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colleky Pains, Heartburn, Loss of Appetite, Despondency, Cos-tiveness, Blind and Eleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure. a decided cure.

This is a purely vegetable compound, prepared or scrictly scientific principles after the manner of the celebrated Holland Professor, Beerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its traly wonderful medicinal virtues must be acknowledged. cinal virtues must be acknowledged.
It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTIONS The great popularity of this delightful Aroma has in duced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Borhave's Holland Eitters of air trial. One bottle will convince how infinitely supe

SLOAN'S LADIES' RESTAURANT

THE RIVER was rising very slowly yester-day, barely two inches in 24 hours, with a rise alether at the head of the falls of thirteen incl to last evening. This is equal to fully thirty hes, at Portland, with 34 inches on the falls. The weather is moderate and pleasant, though cloudy during the day, but clear in the evening.

The officers of the mail boat yesterday, the Telegraph No. 3, inform us that the river at Cincin-

nati had risen fully two inches per hour, up to the time of her departure. She left port in the evening, yet our dispatches only reported a rise of seven inches. The dispatches yesterday report a rise of five feet at Cincinnati, and we may expect the river rising quite fast here to-day.

ing out her stauncheons, and otherwise injuring the boat. The latter was detained over 48 hours by the freshet, unable to cross the "Rubicon." At Pittsburgh, the river was falling very fast, yesterday, with no hopes of a flatboat fleet of coal. The dispatch, yesterday, in reference to coal boats, was to Charley Miller, in which it was stated that but two pair of flatboats had got out, but a subsequent dispatch, from Morrison, states that three pair had started.

that three pair had started.

The Eagle, a powerful, new tow boat, with a fleet of barges of coal for the Messrs. Miller, is due from Pittsburgh to-day. She started with the fleet of tow boats, but owing to her superior fleetness, and strength of pinions, she distanced the field, and will be the first boat in with coal.

The late rise was chiefly confined to streams on The late rise was chiefly confined to streams on the north of the Ohio, the snow storm of Sunday, however, extending far and wide, with snow to the depth of 18 inches in the mountains. At Fairmont, on the Monongaheia, the river had risen

"Going In to Star."—Among our steamboat advertisements may be seen one headed "going in to stay." That has reference to the John Bell, which left this port a month or two ago for the Cumberland, and true to her motto, she has been there ever since, and from appearances will stay

For New Orleans.—The gallant Woodford, in charge of Capt. Mose Irwin, a thorough boatman, takes her departure to New Orleans this evening. She starts at 4 o'clock, from Portland, and forming one of the lightning line, will know no such word as delay, but go without fail. The clerk is our courteous friend, H. B. McLaughlin, one of the best and most correct on the river.

New Red River Packer Starlight.—A year or two ago the Messrs. Hayes, of this city, ventured their means, time, and services in the construction of the Swan, a light boat for the upper Red river, and, in connection with others, started her South. They ran her so successfully in Red river that it was ascertained that she was not large enough, or fine enough for the accommoda-tion of all their friends, and during the past sum-mer and fall they had another layers finer more mer and fall they had another larger, finer, more commodious and attractive boat built, which has been named the Starlight. She now rides grace-fally at the Portland wharf, all complete, and ready to start on her first trip to the South, and we hazard nothing in the conjecture that she will be the best, and most costly furnished and elabor-

The hull of the Starlight was built by Sam King, of Jefferson, with the following dimensions: length, 170 feet; beam, 83 feet, with 30 feet floor, and 6 feet depth of fiold, giving her a carrying capacity equal to the barthen of 2,000 bales of cotton. The cabin and entire joiner work was done by H. McClaran & Co., of the steam manufactory, who have no superiors in steam manufactory, who have no superiors in cabin building, and have made a beautiful, neat cabin for the Starlight. The furniture for this fine cabin was made by our old friend, John Simm, who turns out the best, most serviceable, cheap, and perfect furniture in the city. The rich and rare carpets, costly cartains, and everything in the farniture line, all of which is magnificent and beautiful, was furnished by the famous house of Hite & Small. The upholstery, complete, was made and fitted up by Henry Welmhoff, and the finish to the cabin, mouldings, gilding, etc., was by Hegan & Escott. Her table ware and pantry ware will considerably extensish the natives, a all ware will considerably astonish the natives, as al the dessert service, and most of the dinner setts,

Mobile to Montgomery, struck a snag and sunk on the morning of the 17th, a few miles below Cahawba. After stopping the hole she was raised, and proceeded to Montgomery. The water at one time was about three feet over her deck. Cargo badly damaged.

The Diana, Capt. Sturgeon, which started to New Orleans Sunday morning, passed Evans-ville yesterday morning. She had been detained over forty-eight hours, by the low water, chiefly at Scuffletown, where she found but four feet water. She left the John Gault hard aground on the bar. The Diana was full of passengers and stock, and chartered the Dianond to lighten her over the bars. She will have no further trouble by low water, as the rise in the Wabash will make plenty of water at the Sisters and Cumberland.

The Wabash, at Terre Haute, had risen very rapidly since Saturday, and unfortunately caught the new bridge in a bad condition for resisting its influence. The consequence is, that one pier just erected, and a considerable amount of timber, has been washed away. The river is nearly bank full and rising.

The Southerner, Capt. Triplett, on her way ap from Memphis, was so unfortunate as to break a piston head, below Cairo. She is coming on one wheel, and will have to lose a trip.

The Orb, yesterday, discharged a large lot of sugar and molasses, reshipped from Cairo by the T. C. Twichell. A slight rise is reported in Kentucky river, and we hope to hear of a rise in Cumberland, from head waters.

We learn from friend Tarkington, of the Umpire No. 3, that she was detained yesterday perfecting some necessary repairs, but will leave for all landings on Kentucky river on Saturday, as advertised. The folks at Frankfort can look-

out for her. The Scioto No. 2, the Henderson packet, having been detained by the very low water, did not arrive in time to start to Henderson yester-

day. She goes to-morrow. The Memphis, Capt. John Bagher, will be a port this morning, on her way to Memphis.—he has fine accommodations.

FOR THE EAST.—The fleet Superior is the mail boat for the East to-day. She starts at eleven o'clock, and will provide comfortably for passengers, connecting with all the daylight trains at Cincinnati, and on application to Robert Dunning, the popular and courteous clerk, through tickets can be secured.

HILL AGROUND.—We learn that the H. R. W. Hul, which left Memphis Friday, with 4,000 bales of cotton, got aground a short distance above Helena Saturday. The John Simonds was engaged in the work of pulling the Hill off.

The famous High Flyer, Capt. Wright, tarted to New Orleans yesterday with a splendid

trip of passengers.

The High Flyer will leave Cairo for New Orleans on Saturday, after the arrival of the cars.—

to connect with her.

The fleet Lightning Line packet Pacific, is due from New Orleans this evening. She returns to New Orleans direct to-morrow, Saturday evening, in charge of Capt. McGill. Passengers and shippers can rely upon her punctuality.

One of the St. Louis papers, of yesterday, says the last boat to be sent out by the Missouri River Marine Association left port last evening.—That boat was the Duncan S. Barter. The association has been dissolved, disbanded, disjointed, scattered to the winds and weather, and now all the Missouri river prekets are free to do as they

BY TELEGRAPH.

From Washington. Washington, Dec. 2.—It was recently extensively reported that Secretary Cobb had accepted the appointment of Minister to France, and now it is reported that he is going to England in a similar capacity, but there is the highest authorisimilar capacity, but there is the highest authority for saying that there is no truth whatever in these statements; and further, that since the formation of the present cabinent, it is not known that any member thereof has had the remotest idea of withdrawing from it for any purpose.

The President's message is in type, and will be ready for the press to-morrow. Advance copies, according to the present design, will be sent only to Richmond, Va., Baltimore, Philadelphia, and New York.

Shocking Affair-Attempt to Murder a Wife and Step-daughter. In Detroit, Mich., Nov. 25th, an Irishman nam

ed Michael McNamars, a sailor, living on the south side of Franklin street, between St. Antoine and Hastings streets, made a deliberate attempt to cut the throats of his wife and step-daughter, to cut the throats of his wife and step-daughter, the latter a girl about sixteen years old, with a razor, and succeeded in inflicting several very severe wounds on the neck, head, and hands of each, the girl suffering much the more severely. Their screams and struggles prevented him from accomplishing his object, however, and, abandoning his project, which, from the circumstances, evidently was to murder the whole family, he threw the razor away, and gave himself up to the officers of justice without resistance. The first in-timation the intended victims had of the inten-tions of the father and husband, was his coming up the stairs into the back chamber, where the ap the stairs into the back chamber, where the family, consisting of the mother, the eldest daughter, and four little ones, ranging from two to ten years old, were in the act of retiring. The mother was on her knees in the act of praying, with her little ones already in bed, when he advanced to a position behind her, took her by the hair, and pulled her head back.

The exact nature of the struggle between the two it is difficult to give from the fact that the

two it is difficult to give, from the fact that she refused to describe it for fear of implicating him a most extraordinary instance of woman's fideli-ty under extreme circumstances. He succeeded in inflicting several severe wounds on her throat, and then, probably becoming fearful lest the children should make their escape and give the alarm, seized the oldest girl, who was about the run down stairs, and made desperate attemps to cut her throat. She screamed and struggled with all her strength, using her hands to defend her throat, by which means the razor was drawn diectly through one of them, which was cut in errible manner. She succeeded in getting away rom him after he had cut her neck open on both sides, and out her head in one or two places, and ran down stairs, followed by her mother, and out into the street. The neighbors, hearing their creams, ran out at the same time, and describ the sight as shocking in the extreme; the tw women running for their lives, the blood stream ing from their gaping wounds and besmearing their faces and clothing with its sanguinary color which with their fright and screams, rendered ost sickening appearance.

The Free Press says: The cause of the whole transaction, and not or of this particular one, but of others which are orthy of mention as illustrating the misery are il disposed man can inflict upon an unprotected evil disposed man can inflict upon an unprotected family of females, was given by the girl as she lay on the couch at the house of a neighbor scarcely able to speak from excitement and loss of blood. She states that her father, who died some years since, left to her mother property to a certain amount—worth, we believe, about \$1,000. McNamara afterwards married her mother, and has since been possessed of an insane desire to get possession of the property, and has used every means to accomplish that end. The girl and her younger brother and sisters are also heirs to a property worth about \$3,000 which has been an accomplish that the control of the property worth about \$3,000 which has been as roperty worth about \$3,000, which has been a bject of desire to him. BY CROW INDIANS-A MELANCHOLY TALE .-- We script, of Tuesday. Accounts which have reach ed us through another source of the conflict be tween the Crow and Sioux Indians, create some doubt as to the melancholy result said to have at-

ended that conflict: It is our painful duty to announce upon autho It is our painful duty to announce upon authority which too surely establishes the truth of the tale, the melancholy fate of the three young English noblemen so lately in our city, and who made so many friends and acquaintances while here.—
Lord Crosvenor is a son of the Marquis of Westminister; Lord Cavendish, of the Duke of Devonshire; and the Hon. Mr. Ashley, of the Earl of Shaftesbury. They came to this country with the twofold object of acquiring information, and obtaining sport. With this view, they accompanied the Right Hon. M. Ellipe as far as St. Paul's taining sport. With this view, they accompanied the Right Hon. M. Ellice as far as St. Paul's, Minnesota, and there left him to proceed to the prairies of the far West on a hunting excursion. It appears that they there joined a portion of the Sioux tribe of Indians; and that while on the tramp they were met by a hostile party of the Crow tribe, who set upon them, overpowered them, and eventually murdered the whole. This melancholy termination of a tour for pleasure, is something frightful, and will cause the deepest grief and sorrow in the families of three of the oldest and proudest of England's nobility. The young men were all in the prime of life, and must young men were all in the prime of life, and must have sold their lives dearly. It was, we believe, in the United States territories that the rencontre

Pleasant, seven or eight miles from the city, has been suf-fering—as we learn from Mr. J. F. Wright—under mental aberration, to which he is periodically subject, for several days past, and yesterdey com-mitted a horrid act that threw the little commu-nity where he lives into a tremendous state of nity where he lives into a tremendous state of excitement. He obtained possession of a revolver, and entering a room where his wife was sitting sewing, raised the pistol without saying a word, and fired two of the barrels within three or four feet of her. The weapon was loaded with heavy shot, five of which entered her left breast, and one the tracker or winding parties reaches.

dition extremely critical.

After perpetrating the deed, Henry fled, and meeting a woman coming toward him, he drew a revolver again, and endeavored to shoot her. His pistol snapped each time he made the effort, or he would certainly have blown her brains out, as his weapon was almost at her ear. When he found he could not shoot her, he struck her on the head with the revolver, knocking her down and injuring her seriously. DEPARTMENT OF STATE, DEPARTMENT OF STATE, WASHINGTON, Nov. 21, 1858.

To Mr. A. Hart, President of the Congregation "Mickve Israel," Cherry street, Philadelphia.

Sir: I have received, and submitted to the President, your letter of the 15th inst., respecting the alleged forcible abduction from his parents of a Jewish child, by the public authorities at Bologna, in the papal dominions, and asking some expression of condemnation on the part of this government.

This occurrence took place within the territories of an independent power, and without effecting the rights of any American citizen. It is the settled policy of the United States to abstain from all interference in the internal concerns of the country.

country.

Certainly there is nothing in the circumstances of this case, as they are reported, which would impose this reserve upon the government. But it is deemed proper to adhere to the established principle which has heretofore regulated its conduct in its intercourse with other nations.

I am, sir, your obedient servant,

LEWIS CASS.

PRIVATE MEDICAL DISPENSARY.

D. R. GATES has the pleasure
of announcing to the public that he has taken' the office formerly occupied by Dr. King, and permanently located in Louwille, Ry., where he would call the attention of all those afflicted with diseases of a private or tonfidential nature, to the new method of treatment as gracticed in the English and French hospitals. Having for several years made this class of diseases a secularity, with the knowledge he has of them, warrants him in saying that there is no form of symptoms which they as due that is without a quick and permanent cure. Dr. J.'s mode of treating these diseases is entirely new, having never been adopted by any other Physician in this country.

Monthly Pills, a safe and effectual remedy for Irregulari-ties, Obstructions, &c.; price \$1. Caurons! These Pills should not be taken during Pregnancy, as they are sure to produce miscarriage. The Pills and Powders sent by mail to any part of the country. Persons at a distance may be cured at home by ad-dressing a letter, stating case, symptoms, length of time the disease has continued, and have medicine forwarded.
